TECHNOLOGY INTEGRATION PARTNER

NDI|HX3

NDI®|HX PLUGIN
for Axis Cameras

Google Meet

Microsoft Teams

zoom

webex by CISCO

Upgrade your online conferencing experience with our cutting-edge NDI®|HX Plugin app for Axis Communications IP cameras.

Unleash the full potential of your Axis camera and enjoy seamless integration with popular platforms like Google Meets, Microsoft Teams, Zoom, and more. Elevate your virtual meetings and classrooms with superior image quality and PTZ capabilities, all without needing additional hardware.

Webcam Revolution

Morph your Axis IP camera into a high-end webcam for all virtual needs.

Quick & Effortless Setup

Just a few clicks to install our NDI®|HX Plugin app and your Axis camera is ready to impress.

Stunning Image Quality

Experience the brilliance of Axis Communications' world-class camera technology.

Versatile Integration

Works effortlessly with Google Meets, Microsoft Teams, Zoom, Webex, and more.

PTZ Functionality

Take advantage of powerful PTZ features during online conferences (if supported by your Axis camera).

Multiple Camera Connectivity

Simultaneously link up to four Axis cameras to your PC for ultimate control.

Broad Compatibility & Multi-User Access

Works with a wide range of Axis camera models and can be utilized by multiple computers simultaneously.

No Additional Hardware

Our NDI®|HX Plugin is a pure software solution, eliminating the need for extra equipment.

Perfect for Universities

Designed with academic institutions in mind, offering a robust solution for remote learning and collaboration.
